1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Steininger et al.

Steininger et al. substantially show the invention as claimed (see figure 2, the combination of body 15 and fitting 37 is considered to be an adapter) except that they do not disclose whether the adapter is made of beryllium copper. However, in col. 4, line 14+ of the patent, it discloses that the cup shape piston head is preferably made of beryllium copper alloy. It would have been obvious to make every parts of the piston with same material (i.e. beryllium copper) such that they all have the same thermal expansion coefficient and thereby to obtain a better joint between parts during the casting cycle. Also, it would have been obvious to made the adapter with beryllium copper alloy in view of its combination properties of excellent thermal conductivity and the mechanical strength.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
